    - Clinician does not accept 3rd party payments from insurance companies, health savings accounts, workman's compensation, attorneys or disability services. All payments are to be made directly from Client.

5. Office Policies

    - Effective psychotherapy requires a good match between Client and Clinician. The first sessions will determine if Clinician is the right provider for Client. If not, Clinician will help find a provider to better meet Clients needs.
    - Clinician will do their best to help Client achieve their goals, but cannot guarantee any particular result. The more active a role Client takes in treatment, the more Client will benefit from the services rendered.
    - Lateness by the Client doesn't alter the session fee or ending time. Clinician lateness will always be made up.
    - In the event of inclement weather, call your therapist to find out if your session is cancelled. If Montgomery County Government is closed, and Client is unable to attend their scheduled session, Client will not be charged.
    - Due to safety reasons, we cannot have any children less than 13 years old left unattended on our waiting room.
    - Clinician does not complete court reports, recommendations for custody, disability applications, or psychological testing. If you require these documents, Clinician can refer you to a specialist.
    - Client waives their right to request records in the event of a legal matter as your clinician is ethically compromised if they get involved in the legal matters of their clients.
    - While sessions may be intimate emotionally and psychologically, it is important to know the relationship between Client and Clinician is professional and not a friendship. Contact is limited to paid therapeutic sessions as well as phone or email contact for the purpose of administrative needs or scheduling requests.
    - The Protected Health Information about Client in the clinical record is available for you to review. Unless disclosing the record to Client will likely endangers Client or someone else's safety, Client can review or receive a copy of the records if a request is made in writing 30 days in advance. Due to the sensitive nature of these records, it is recommended to review them with your clinician present. There is a standard copying fee of $.25 per page. Alternatively, Client has a right to a summary of services sent to Client or to another provider.
    - If documentation is required, there will be a set fee for any completion of forms, preparation of a summary or assessments. Please discuss these fees with your provider before any additional paperwork is completed.
    - Clinician is directly responsible for the care, maintenance and property of the client records. Records requests will be made directly to the Clinician even if they are no longer contracting with Another Look at Healing, LLC.

- It is impossible to guarantee the confidentiality of email or text messaging content. You acknowledge the risks and release therapists from liability for the risk to your confidentiality when you chose to email or text your therapist. For more private communication, call your therapist directly or schedule a session to talk in the office.
- All Clients and Clinician emails will be limited to administrative issues (ie scheduling or billing). Client understands that fax and email communication may be intercepted by others and Clinician is not responsible if such interceptions occur. Clinician will limit their communication to the methods documented by the Client in this agreement, given the limitations listed above.
- It is our policy to not accept friend requests from clients on Facebook, Linked In or other social media websites. We cannot protect confidentiality if you connect with us via social media.
- By signing this form, you consent to release your contact information and, if necessary, clinical records to a designee, in the event your clinician has an emergency and they are unable to contact you themselves.
- Client has the right to terminate services at any time. It is most helpful and recommended that Client discuss termination with Clinician before discontinuing. All Clients are mailed a closure letter at the end of treatment.
